22 July 2019

Dear Sir or Madam,

The Management and Board of Directors of Castlecomer Demesne Company support the most recent plans for the new footbridge located over the River Deane in Castlecomer.

We are pleased with the progress that has been made in relation to the plans and we welcome the construction of the bridge in light of the positive impacts on the Community.

Castlecomer Discovery Park is currently a significant visitor attraction and future plans are ambitious to develop the activities and attract more international tourists, increasing bed night potential for both Kilkenny City and Castlecomer town. Promoting walking access through the town will have a spin off impact on the local businesses of the town, and from our perspective improves the safe access both to and from the park and as such is a welcome development.

Please do not hesitate to contact me should you require further information.

Yours sincerely,

Michael Brooke

Chairman, Castlecomer Demesne Company
(Castlecomer Discovery Park)

Re: Proposed Pedestrian Footbridge adjacent to the existing N77 road-bridge at
Castlecomer, Co. Kilkenny.

To whom it may concern,

I, Tim Butler, Director of Services, Kilkenny County Council confirm Kilkenny County Councils active engagement with the preparation of documents for this planning application. Several sections of Kilkenny Council took part in the process including Planning, Conservation and Road Design.

I hope in due course you will be in a position to give a favourable response to this planning application.

Regards,

Tim Butler,
Director of Services,
Kilkenny County Council.
