Ref: Kilkenny City & County Council draft
development plan 2021-2027

I Melissa Norris am writing to object
to the current proposal to change
designated land in our community to
"Acceptable in Principle" for wind energy.

You couldn't pick a worse location for
turbines in the south east if you tried -
in the middle of the south leinster way on
route to the blue way and now the newly
proposed Greenway extension from Waterford
to New Ross

This wind project wont create any permanent
local jobs and will damage any potential for
tourism with increased heavy traffic and unsightly
turbines on the landscape

Local roads will be drastically impacted with
more traffic and lorries supplying the proposed areas

Yours sincerely

Melissa Norris

8th March 2021.
