monitoring evaluation report(s)

Kilkenny County Council publish all current monitoring evaluation report(s)

SEA

Document should describe and evaluate the likely significant effects on the environment of implementing the proposed variation and reasonable alternatives.

Document should outline current knowledge and methods of assessment.

Document should outline relevant aspects of the current state of the environment and the likely evolution thereof without implementation of the plan or programme;

Document should outline of the reasons for selecting the alternatives dealt with, and a description of how the assessment was undertaken

Please fix.

4.3.7

existing Problems

As occurs with the development of all settlements, built development within the vicinity of the Masterplan site to which the Variation relates has resulted in loss of biodiversity and flora and fauna however legislative objectives governing biodiversity and fauna were not identified as being currently conflicted with

The Council is responsible for the ongoing review of indicators and targets, collating existing relevant monitored data, the preparation of monitoring evaluation report(s), the publication of these reports and, if necessary, the carrying out of corrective

action.
